

Final Project

Adrian Kyzer

Salon Website:

To create a website for a salon and spa that will showcase

1. Service providers and their bio and portfolio.
2. Services and descriptions.
3. Products we description use.
4. Service provider's schedules
5. Media and press coverages
6. Beauty Blogs

And a bit ambitious...

1. Online booking
2. E-commerce retail of products
3. User accounts so they can access their service and purchase histories.
